

# Pitt-Guard® Epoxy Penetrating Sealer - 95-2328 Series

*Pitt-Guard* Epoxy Penetrating Sealer is a two component epoxy sealer formulated to penetrate, reinforce and seal rusty steel substrates while maximizing the adhesion of the primary coating system. When subject to incidental moisture contact, this product offers excellent clarity in cured films and minimal blushing or hazing. Ideal for situations where abrasive blasting is impractical, *Pitt-Guard* Epoxy Penetrating Sealer offers excellent wetting and wicking, low exotherm and can be directly applied to tightly adherent rust.

## BENEFITS

- Low Exotherm
- Excellent wetting and wicking
- High coverage rate
- Direct applications to tightly adherent rust
- Ideal for situations where abrasive blasting is impractical
